## POWERWALL

Powerwall is a home battery system that turns your home's solar panels into an all day resource – increasing self-consumption of solar – while also offering backup in the event of an outage. Powerwall enables more of your home's electricity use to come from solar, which enhances solar functionality and reduces energy costs.

## Join the Energy Revolution

---

### Store

Store unused solar in Powerwall instead of sending it to the grid

### Power

Your home is powered by solar 24/7 and can even go off grid

### Control

Monitor and control your home energy with the Tesla app

### Protect

Your home is protected during a power outage
